General information

Country or zone - Country	Disease - SARS-CoV-2 in animals (Inf. with)	Started on - 27/03/2020
Animal type - Terrestrial	Confirmed on - 04/04/2020	Causal agent - SARS-CoV-2
Disease category - Emerging	Reported on - 05/08/2020	Reason - Emerging disease

Disease impact

Outbreak morbidity - 2.0	Outbreak mortality - 0.0
Zoonotic potential - Yes	Zoonotic potential description - Zoonotic potential currently unknown

Epidemiology

Source of the event or origin of the infection - Suspected human transmission

Epidemiological comments5 Aug 2020 Update—Louisiana (LA): A domestic dog from a known positive COVID-19 household was confirmed positive for SARS-CoV-2 at the National Veterinary Services Laboratories based upon molecular testing (PCR and sequencing). The affected dog, who had a history of hip and back lameness, was in close and prolonged contact with the COVID-positive owner and was presented to the veterinarian after showing signs of hind end lameness. Due to severe deficits and inability to stand, the dog was euthanized with a probable diagnosis of progressive intervertebral disc disease. New York (NY): The dog from Richmond County, NY confirmed positive for SARS-CoV-2 has been euthanized with a probable diagnosis of lymphoma. South Carolina (SC): Two additional dogs in Charleston County, SC who shared the same household with the SARS-CoV-2 confirmed positive dog have tested negative for SARS-CoV-2 by PCR and virus neutralization (VN).

Control measures at event level

Domestic control measures

Applied

- Quarantine
- Disinfection

Wild control measures

Applied

- Disinfection
- Quarantine

Diagnostic

Clinical signs - No

Method of diagnostic - Diagnostic test

Test name	Category	Test type	Laboratory	Species sampled	Outbreaks	Tested from	Tested until	Result
Real-time reverse transcription polymerase chain	Nucleic acid detection	Laboratory Test	National Veterinary Services Laboratories	Tiger		04/04/2020		Positive

reaction (rRT-PCR)								
Gene sequencing	Genotyping	Laboratory Test	National Veterinary Services Laboratories	Tiger		04/04/2020		Positive
