Event status Self-declaration

On-going No

## General information

Country or zone - Country Disease - SARS-CoV-2 in animals (Inf. Started on - 22/10/2020

with)

Animal type - Terrestrial Confirmed on - 13/04/2021 Causal agent - SARS-CoV-2

Disease category - Emerging Reported on - 31/08/2021 Reason - Emerging disease

## Disease impact

Outbreak morbidity - 2.0 Outbreak mortality - 1.0

Zoonotic potential - Yes Zoonotic potential description - Zoonotic potential under

investigation

## **Epidemiology**

Source of the event or origin of the infection - Suspected human transmission

Epidemiological comments--27 Aug 2021 Update

Ohio (OH): Wild white-tailed deer were confirmed positive for SARS-CoV-2 at the National Veterinary Services Laboratories (NVSL) based upon molecular testing (PCR and sequencing). These are the first deer confirmed with SARS-CoV-2, although earlier studies in the U.S. have shown both that deer can be experimentally infected with the virus and that some wild deer had antibodies to the virus.

Samples from the culled deer were collected between January and March 2021 by The Ohio State University College of Veterinary Medicine as part of ongoing deer damage management activities. There were no reports of any deer showing clinical signs of infection.

Samples from the deer tested presumptive positive at The Ohio State University College of Veterinary Medicine and were confirmed at NVSL. Results are pending on additional deer samples.

Please note: The location used for this outbreak is that of The Ohio State University College of Veterinary Medicine, where animal samples were first tested.

There is a single SARS-CoV-2 event occurrence in the United States of America, however, for WAHIS technical reasons, any new outbreaks in the country will be reported in this new event and not in the one first reported in April 2020.

For more details about SARS-CoV-2 testing of animals in the United States, see:

https://www.aphis.usda.gov/aphis/dashboards/tableau/sars-dashboard.

## Diagnostic

Clinical signs - Yes
